
RIDER S
SYSTEM GAS SERVICE
*** Applicable to Rates 2, 3 and 4**

*** AVAILABILITY**

Available to any non-residential Customer within Company's service area served under Rates 2, 3, or 4 of this Schedule for whom the Company shall provide system gas.

*** SYSTEM GAS SERVICE OPTIONS**

The Customer shall elect the level of service desired from the following options:

Rate 2 and 3 Customers:

1. Full System Gas Service - Standard form of system gas service available to all Customers. Customers that initially fail to make an election shall be placed on Full System Gas Service.
2. Designated Full System Gas Service - Service option for high load factor Customers that do not want to reduce their gas consumption during periods of curtailment.
3. Designated Partial System Gas Service - Service option for those Customers having the ability to reduce their daily gas consumption to an agreed upon level during periods of curtailment.

Rate 4 Customers:

1. Inadequate Capacity System Gas Service - Standard form of system gas service. Customers that initially fail to make an election shall be placed on Inadequate Capacity System Gas Service.
2. Assurance System Gas Service - Service option for those Customers requiring minimal quantities of daily gas service during periods of curtailment.

*** CHARGES**

- A. Delivery Services Charges: The monthly Customer Charge and Delivery Charges of the applicable rate (Rate 2, 3, 4).

SYSTEM GAS SERVICE
*** Applicable to Rates 2, 3 and 4**

*** B. System Gas Charges:**

Rate 2 and 3 Customers:

1. Full System Gas Service - The metered quantity of system gas delivered multiplied by the Gas Charge (GC), or
2. Designated Full System Gas Service - The metered quantity of system gas delivered multiplied by the Commodity Gas Charge (CGC), and the Take-or-Pay Charge (TPC); plus the designated level of daily system gas service multiplied by the System Average Demand Charge (SADC), or
3. Designated Partial System Gas Service - The metered quantity of system gas delivered multiplied by the Commodity Gas Charge (CGC), and the Take-or-Pay Charge (TPC); plus the designated level of daily partial system gas service multiplied by the System Average Demand Charge (SADC). When the amount of system gas used is above the designated level, an additional charge of 20% of the Demand Gas Charge (DGC) multiplied by the excess gas used will be assessed.

Rate 4 Customers:

1. Inadequate Capacity System Gas Service - The metered quantity of system gas delivered multiplied by the Commodity Gas Charge (CGC), the Take-or-Pay Charge (TPC) and 20% of the Demand Gas Charge (DGC), or
2. Assurance System Gas Service - The quantity of system gas delivered, multiplied by the Commodity Gas Charge (CGC) and the Take-or-Pay Charge (TPC); plus the following charges calculated on a daily basis for each day of the billing period:
 - a. The daily assurance level or actual daily volume of gas delivered, whichever is less, multiplied by the difference between the Company supplied delivery charge of Rate 4 and Rate 3 and
 - b. When the daily amount of system gas delivered is above the daily assurance level, an additional charge of 20% of the Demand Gas Charge (DGC) multiplied by the excess system gas delivered.

*** Applicable to Rates 2, 3 and 4**

* C. Facilities Charge:

Applicable to Designated Full System Gas Service, Designated Partial System Gas Service, Inadequate Capacity System Gas Service and Assurance System Gas Service.

\$55.00 per month per meter

TERMS AND CONDITIONS

Service hereunder is subject to the general "Terms and Conditions" and "Tax Additions" of this Schedule.

The GC, CGC, DGC, TPC and SADC are under Rider B of this Schedule.

Prior to July 1 each year, the Designated Full System Gas Service Customer shall designate a single daily system gas amount to be utilized for billing purposes for the next twelve months beginning with September. The designated amount cannot be below the historic Customer peak unless the Customer can demonstrate that operations have changed which would warrant a lower designated amount. Within thirty days of the time the Customer notifies the Company of its designation for the next twelve months, the Company will indicate to the Customer whether or not the designated daily system gas amount requested by the Customer shall be acceptable for use during the period. At such time that Customers maximum daily usage exceeds the designated daily system gas amount during the months of November, December, January or February, the Customers designated daily system gas amount for billing purposes shall be increased to the actual usage level experienced until revised subject to mutual agreement between Company and Customer.

Prior to July 1 each year, the Designated Partial System Gas Service Customer shall designate a single daily system gas amount to be utilized for billing purposes for the next twelve months beginning with September. Within thirty days of the time the Customer notifies the Company of its designation for the next twelve months, the Company will indicate to the Customer whether or not the designated daily system gas amount requested by the Customer shall be acceptable for use during the period.

SYSTEM GAS SERVICE
*** Applicable to Rates 2, 3 and 4**

Prior to July 1 each year, the Assurance System Gas Service Customer shall designate a single daily system gas amount to be utilized for billing purposes for the next twelve months beginning with September. The designated amount cannot be more than 10% of the projected Customer peak. Within thirty days of the time the Customer notifies the Company of its designation for the next twelve months, the Company will indicate to the Customer whether or not the designated daily system gas amount requested by the Customer shall be acceptable for use during the period.

Failure of an existing Customer to make a designation by July 1 shall constitute renewal of the existing designated amount for the next twelve months beginning with September.

During supply limitation conditions, the Company reserves the right to request that Customers under Designated Partial System Gas Service, Inadequate Capacity System Gas Service and Assurance System Gas Service curtail use of system gas for a period specified by the Company. If the Customer fails to curtail usage of system gas to the designated amount after receiving such curtailment notice, all volumes consumed above the designated amount after the notice of interruption shall be subject to the following charges: \$1 per therm; plus Market Price per therm; plus other applicable charges. Market Price of unauthorized gas used shall be the highest price paid per therm of gas by the Company on the curtailment day. During such curtailment conditions, the provision requiring 20% of the DGC to be charged will not apply. The designated amount for Inadequate Capacity System Gas Service Customers is zero usage.

At such time a Designated Partial System Gas Service Customer's actual usage exceeds their designated daily system gas amount during a curtailment period, the Customer's designated daily system gas amount for billing purposes shall be immediately increased to the actual usage level experienced during the curtailment period until revised subject to mutual agreement between Company and Customer. In determining a Customer's compliance with a curtailment request, the Company will prorate Customer's designated daily system gas amount over a 24-hour period.

- * The revenues associated with the system gas reservation charge for designated full and designated partial system gas service and assurance system gas service and the unauthorized use \$1 per therm charge less any pipeline unauthorized use penalties shall be included as a credit in the calculation of the Recoverable Gas Costs (G) of the Demand Gas Charge (DGC) under rider B (PGA) of this Schedule.
